

Technical Seminar “Cogeneration, Geothermal energy and Biomass systems in buildings”

11 June 2019, ALBAFOREST Center, Hotel Colosseo, Tirana, Albania

9:00 – 9:30	Registration
9:30 – 9:50	Welcome address Mehmet Metaj, Executive Director, ALBAFOREST CENTER, Albania Ardian Islami, Ministry of Infrastructure and Energy, Albania
9: 50 – 10:00	The ZenH Balkan project, Assoc. Prof. Argiro Dimoudi, Democritus University of Thrace (DUTH), Greece
10:00 – 10:30	Overview of the energy law and the hospital sector in Albania, Prof. Altin Dorri, Technical University of Tirana, Albania
10:30 – 11:15	Cogeneration of Heat and Power (CHP) - an energy efficient technology, Costas Theofylaktos, Mech. Engineer-Senior Energy Consultant, Hellenic Association of CHP, Greece
11:15 – 11:30	Coffee Break
11:30 – 12:15	Application of Geothermal energy systems in buildings - System design for large buildings, Dr Costas Karytsas, Director, Division of RES, Centre for Renewable Energy Sources, Greece
12:15 – 13:00	Biomass applications in energy systems of buildings, Prof. Besim Islamim Albania
13:00 – 14:00	Lunch Break
14:00 – 14:45	Technical guidance and applications of cogeneration systems in hospitals, Costas Theofylaktos, Mech. Engineer-Senior Energy Consultant, Hellenic Association of CHP, Greece
14:45 – 15:15	Types and quality of biomass used for heating in buildings, Energy Agency Plovdiv, presented by Arch Evelina Stoykova (Sofia Energy Centre)
15:15 – 16:00	Discussion

*Photos and videos will be taken during the event

Project co-funded by the European Union and National Funds of the participating countries
